

## TINY TOTS

A MUSIC PROGRAM DESIGNED SPECIFICALLY FOR OUR YOUNGEST OF MUSICIANS

## Early Learning Centres

You are NEVER too young to start learning music and with our Tiny Tots program created to harmonise across the early years learning framework - means our youngest of musicians can enjoy the benefits that early exposure to music provides.

Our music instructors are passionate, experienced musicians who embrace learning in a fun and safe environment, where inclusivity is key.

## The Benefits of Tiny Tots

- Early exposure to music is proven to nourish, enrich and stimulate our youngest of musicians
- Builds confidence, concentration and coordination at an early age in life
- Promotes the value of being a part of a community that encompasses a love of music with no bias
- Music is one of the few activities that uses both sides of the brain (logical and creative). This helps build important brain connections, the more connections we have the faster we are able to think
- We come to you on a weekly basis and will focus on achieving specific musical goals regularly. This approach keeps children interested longer and is a fantastic opportunity to incorporate a musical component in the Centre's end of year parent presentation to show their development
- With the involvement of your Centre's Educators they will be confident to continue practicing any of the skills learned that week with the children

## Our Services

### Lesson Goals

- Recognise a range of sounds, pitch and instruments
- Identify vocal sounds through song
- Understand Rhythm and Beat

### Lesson Duration

- 30 minutes of musical fun for all
- Classes can be catered across a range of infants to preschoolers - Centre rooms

### Holiday Programs

Let us help you coordinate additional programs

- Instrument Showcase Days. We bring a range of amazing instruments and showcase how they're played
- Musical Presentation - a planned number of classes across a period of time with the goal to prepare a mini musical presentation for family and friends.
